

Waiting List Form

Statement about equality

We are against all forms of discrimination, with particular reference to the following equality strands: gender, age, ethnicity/race, disability, religion/belief, sexual orientation, maternity and people who are transgender.

Newham is a diverse community and each individual is unique within his or herself and may combine a range of the above protected characteristics. As individuals we are all different and the key to delivering equality is ensuring our Nursery School and Children’s Centre services provide fair and equal access for all our families regardless of which equality strands they belong to.

Do you have one of these Newham Children’s Centre cards?
